

1

Set the Goals	
Define the output you want to create in a couple of sentences	
Create a predictive model to effectively estimate hourly traffic counts at various road intersections using past traffic data by performing EDA, data visualizations and analysis, and finally doing data modelling and model evaluation	
Add the skills that you want to learn by the end of the menternship	
1. Data Analysing	2. Machine learning
3. Deep learning	4. Data Science
Add the key learnings you want	
1. Learn how to analyze and visualize past traffic data.	
2. Learn how to build and test machine learning models.	
3. Learn how to check and improve a model's accuracy.	

2

Major Constraints	
Add the constraints you face in working on the tasks mentioned in the menternship (for example: data cleaning, creating a content calendar)	
1. Managing time between my office work and to complete this project	
2. Have not worked with huge datasets in the past	
3. Learning new and complex algorithms and implementing them in real time	
Find resources on your own that can help you and add below	
1. How to plan my project	2. Data Science algorithms
3	4
5	6

3

Add the schedule		
Add the Schedule Below		
Stage	Add the deadline by when you want to complete the corresponding steps	Tick when completed
Start of the Menternship	June 21, 2026	☐
Complete the Workplan and Submitted	June 22, 2026	☐
Component 2	June 28, 2026	☐
Component 3	July 5, 2026	☐
Component 4	July 12, 2026	☐
Component 5	July 16, 2026	☐
Completed the Menternship	July 18, 2026	☐
Recieved the Feedback over email	July 20, 2026	☐
Submitted the Final Draft	July 22, 2026	☐
Add the Schedule for Mentor Sessions you want to attend		
Stage	Date (Double click on the cell below and add a date)	Tick when completed
Mentor Session 1	July 4, 2026	☐
One on One Call (Book one when you have specific queries)		☐
Mentor Session 2	July 9, 2026	☐
Mentor Session 3	July 16, 2026	☐
One on One Call (Book one when you have specific queries)		☐
Mentor Session 4	July 19, 2026	☐
	Do not alter	
	You need to fill
